SURVEY

A survey was conducted on 20th October in 27 villages near Kharagpur by the members of GYWS who interacted with the family members of our school students as well as their neighborhood. The motive behind conducting this survey was to identify the financial and cultural background of families of the students of JVM, potential students for admission in next year, potential beneficiaries for specific programs that we run such as Tailoring Workshop and Farmer’s training. We got a detailed report of the living conditions of our students. Hence, we could judge the level of poverty in which they are staying and prioritize our future initiatives.

STUDENT SPEAKS

“From helping me explore dancing, technology or sports, to providing me with an amazing environment of quality education and a lot of lovely friends, I can never really thank these people for this. They are highly supportive, caring and always looking in to help me with academics and make me learn different skills through CCA and different events; either happening in IIT or at different schools,” says a girl of class 4 when asked about what she feels about us.

TALK WITH PARENTS

Being aware of how hard it is to raise money, parents are always in for any kind of mental or physical support they can provide. From attending all the Parent Teacher Meetings to being completely updated about their child’s performance, they believe that this is a golden chance for their children to explore and learn which wasn’t possible otherwise. They really look upon us for their child’s development and future.
**SPORTS DAY**

Sports not only build better athletes but also better people. Sports help in character building and provides energy and strength. Keeping in mind the over all development of students, Sports Day was conducted on 19th October in JVM. We aim to provide a friendly atmosphere where students could compete in various sports of their interest. Children participated with a lot of excitement and enthusiasm. Games like 100m race, lemon race, burst the balloon, 3-legged race, etc. were conducted.

**CLEANLINESS DRIVE**

On the occasion of 150th Gandhi Jayanthi, the team of GYWS conducted a cleanliness drive in Kharagpur with the motto of “SWACHH BHARAT”. We cleaned selected areas and also created awareness in those areas regarding the importance of cleanliness for community health. We collaborated with NGOs in other places and successfully took forward the cleanliness drive in various places across India like Dhanbad, Sikkim, Raipur, Mathura, Jabalpur, Kancheepuram, Samvedna, etc.

**TEACHERS’ DAY**

Teachers are the medium through which one can gain eternal knowledge. To learn anything, one must approach a teacher. On the occasion of Dr. Sarvepalli Radha Krishnan’s birthday, we celebrated teachers’ day in our school to emphasize the importance of teachers to the students and the relationship between them. Teachers were given gifts for their selfless service to the school and the students.

**OUR DONORS**
